CONSTRUCTION

The "Espace Riviera" residence, built in 2012, stands out for its contemporary architecture and elegant lines. Designed to offer comfort and quality of life, it blends harmoniously into a quiet residential neighborhood just a stone's throw from Lake Geneva.

Organized in a "U" shape, the building is built around a pleasant central landscaped area, enhanced by pedestrian walkways, well-tended gardens and a playground. The various entrances are easily accessible from several sides of the building, and visitors benefit from nearby parking spaces.

The spacious, light-filled entrance halls cross the building from east to west. As for the apartment, it benefits from direct access to the large terrace from all rooms, thus extending the living space outwards.
