SITUATION AND DESCRIPTION

Large, bright 4,5-room apartment in the center of Le Brassus

Located in a small high-end condominium, this 100 sq. m. apartment boasts plenty of natural light and meticulous finishing. A stone's throw from the center and amenities, yet bordered by forest and footpaths, it offers a practical and pleasant living environment.

The main living area opens onto a fitted kitchen with wood finishes, combining design and functionality. The space extends onto a **large private garden**, ideal for enjoying fine weather.

On the night side, two bright bedrooms share an elegant bathroom with bathtub. The master suite, a truly privileged space, has its own shower room and a vast fitted dressing room.

A private laundry room and a storeroom complete the comfort of the apartment, designed for a fluid and

pleasant daily life.

The residence, built in 2022, focuses on sustainability and energy performance thanks to solar panels and an air-to-water heat pump supplying the underfloor heating.

Available from August 2026, the apartment also includes a **large private cellar** and a shared bike room. Two additional parking spaces - one covered at CHF 15,000, the other outside at CHF 10,000 - complete this rare property on the market.

An apartment designed to combine **comfort, quality and aestheticism**, in the heart of the Vallée de Joux.
