SITUATION AND DESCRIPTION

Located in the charming commune of Belfaux, in the immediate vicinity of Fribourg, the Bel Horizon project comprises three small buildings with a total of 8 apartments. The homes, ranging from 3.5 to 5.5 rooms, offer generous floor areas from 92 to 131 sq.m., with bright, perfectly laid-out living spaces.

Located in a green, peaceful environment, the project combines modernity and serenity, while benefiting from close proximity to amenities and access to the city.

Covered parking spaces are available at an additional cost of CHF 30,000 per unit, over and above the sale price of the apartments.

LOCATION

Just 5 kilometers from Fribourg, the commune of Belfaux enjoys a privileged location in the heart of the canton of Fribourg. Surrounded by Corminboeuf, Givisiez, Grolley, La Sonnaz, Misery-Courtion and Ponthaux, it offers a peaceful living environment, while remaining close to urban centers and their amenities. The commune boasts an efficient public transport network, with regular bus routes as well as two regional rail lines. The Belfaux railway station, located on the transverse Broye line of the Swiss Federal Railways (SBB), facilitates travel to the region's main destinations.

By car, motorway routes are quickly accessible, providing access to:

- Fribourg in 10 minutes,
- Berne in 30 minutes,
- Neuchâtel in 45 minutes.

MUNICIPALITY

Belfaux is a Fribourg commune in the Sarine district, with a population of over 3,500. This village on a human scale appeals for its balance between residential areas, modern infrastructures and vast agricultural and wooded areas.

The commune offers numerous shops, restaurants, a pharmacy and an active community network, providing all the amenities needed for daily life. Children benefit from an on-site nursery and elementary school, while secondary school pupils join the Cycle d'orientation de Jolimont in Fribourg.

Belfaux thus stands out for its harmonious living environment, excellent transport connections and vibrant local life.

CONSTRUCTION

The project stands out for its contemporary architectural design, with facades partially in wood, adding a touch of modernity! Customizable finishes

give you the opportunity to create a space to suit your image, with budgets and materials detailed in the technical description.

In terms of energy performance, the project complies with current standards: including triple glazing, solar panels, a heat pump fed by geothermal probes, and distributed underfloor heating.

Construction is scheduled to start in spring 2025.
