### RENTAL PROGRAM

**[www.switzerland-sothebysrealty.ch](http://www.switzerland-sothebysrealty.ch)**

The owner benefits from a guaranteed annual net return of 3.5% on the purchase price of his/her apartment.

As part of this program, the owner has access to the resort's public facilities on the same basis as hotel guests (with the exception of the consumption of food, beverages or additional services).

The owner does not incur any other additional charges.

#### **OWNERSHIP COMMONWEALTH**

The owners of the Aeschi Park Resort apartments form an ownership community. Each owner holds a share in the entire building, as well as the exclusive right to use his or her apartment (as long as it is not a commercial apartment). The owners have control over the building and, at the annual meeting, the budget for the following year is determined. In addition, all issues are presented and discussed. Any proposal, whether from one or more owners or the manager, will be put to the vote.

This architectural elevation drawing depicts a modern building complex. The structure features a series of interconnected volumes with varying roof heights and gabled forms. The exterior is characterized by a palette of earthy browns, stark whites, and muted greys. Large, multi-paned windows are integrated into the design, some with dark frames and others with lighter, possibly glazed, sections. The building's form is complex, with multiple levels and setbacks, creating a dynamic silhouette. The drawing uses clean lines and flat colors to represent the building's facade and structural elements.
