SITUATION AND DESCRIPTION

Located in Châbles, on the shores of Lake Neuchâtel, this new project involves the creation of ten apartments, ranging from 3.5 to 5.5 rooms, resulting from the complete renovation of an existing building and the addition of a contemporary façade extension.

The building, spread over five levels, offers bright and thoughtfully designed apartments, each providing a lake view with perspectives varying depending on the floor.

The residences are appealing due to their generous spaces and abundant natural light. The living areas, designed with a friendly and contemporary spirit, are centered around open-plan kitchens connected to the living room, promoting flow and daily comfort. Each apartment features built-in wardrobes at the entrance, optimizing storage, as well as a private outdoor area, whether a balcony, loggia, or terrace, depending on the unit.

An underground garage provides covered parking spaces, complemented by visitor parking. Numerous bicycle spaces, along with outdoor amenities including a playground, help create a pleasant living environment.

LOCATION

The location offers a privileged living environment, between nature, calm and outdoor activities.

Families benefit from the immediate proximity of the school circle, while water sports enthusiasts and walkers can enjoy the Cheyres harbor and lake shores. The Cheyres train station provides easy access to regional centers, facilitating daily commuting.

Shops, restaurants and local services are just minutes away, guaranteeing practical daily living while retaining the tranquility of a village by the water.

MUNICIPALITY

The Commune of Cheyres-Châbles, comprises the villages of Cheyres and Châbles, offering a peaceful and friendly living environment. It benefits from a rich

natural environment, ideal for walks, water sports activities and outdoor living.

The Commune has all the infrastructure necessary for everyday life: schools, local services and local shops. The village of Cheyres also boasts a port and a railway station, providing convenient links to regional centers.

Cheyres-Châbles thus combines quality of life, tranquility and accessibility, making the commune a privileged location for families and all those seeking a balance between nature, lake and urban amenities.

CONSTRUCTION

The project combines renovation and contemporary extension while respecting the existing architecture. The interior finishes reflect a modern, well-kept

standard: large-format tiles in the living areas, warm parquet flooring in the bedrooms, and elegant bathrooms equipped with contemporary showers and vanity units.

The comfort of the residents is guaranteed by a ground-water heat pump, low-temperature underfloor heating with individual regulation and a boiler for domestic hot water. Electricity production is supported by photovoltaic panels installed on the roof.

The apartments offer luminosity and comfort thanks to triple-glazed PVC-aluminum windows and French windows, motorized sun protection or aluminum shutters depending on the facade, and roof openings providing generous natural light.
