Restaurants	28 m

DISTRIBUTION

- Entrance hall
- Visitors' WC
- Living and dining room
- Open kitchen
- Laundry room
- En suite bedroom
- En suite bedroom with dressing room
- 2 balconies

LOCATION

The Sant Jaume neighborhood is renowned for its historical and architectural richness. Its streets, steeped in centuries of history, connect to the commercial appeal of Jaume III Avenue, offering residents a perfect blend of tradition and modernity.

Architectural details range from Gothic and Baroque to Modernist styles, featuring wrought-iron balconies, grand wooden doorways, and stone facades. It is a neighborhood where past and present coexist in perfect harmony.

CONSTRUCTION

The refurbishment of the building has been comprehensive and includes new foundations, floors and timber beamed structures to provide a new stairwell, lift and front entrance.

The restoration of the facade uses the same traditional materials and finishes, preserving the existing symmetry and ornamentation, such as the moulded cornice with sculpted corbels. The traditional French windows of wood and the glazed gallery have been faithfully reproduced.

Each of the four homes will be delivered with high-quality finishes, meticulous attention to detail, state-of-the-art technology and a range of amenities designed to provide exceptional comfort, including:

- Air conditioning, floor heating and silent ventilation systems to be controlled by its home automation system.
- Excellent finishes such as its 22mm roble parquet flooring in the bedrooms, hydraulic tyle carpet in the living and dining rooms and doors

from lacquered wood with magnetic lock and concealed hinges.

- En-suite bathrooms, walk-in closets and lift.
