SITUATION AND DESCRIPTION

Located in the heart of the village of Môtiers, this fully renovated house stands out for its quality finishes and excellent state of maintenance. It offers a pleasant, peaceful and authentic living environment in the Val-de-Travers.

The property comprises two independent apartments: a 3-room apartment on the ground floor and a 4-room apartment on the upper floor. Each benefits from good natural light, a warm atmosphere and separate access, ensuring comfort and privacy.

Thanks to its layout, the property is suitable for a family or occupants wishing to have two separate living units, as well as for a buyer seeking to live in one apartment while renting out the other, or for an investor looking for a yield-generating property.

Set on a 723 m² plot, the property features a

landscaped garden and outbuildings, including a partially convertible barn. The house may be sold furnished if desired. Development potential is also conceivable, notably through the creation of one to two additional residential units within the existing structure, subject to the necessary permits.

Ideally located close to amenities, the railway station, schools and walking trails, this property combines quality of life, flexibility of use and value potential in a calm and sought-after environment.
