SITUATION AND DESCRIPTION

A SWITZERLAND SOTHEBY'S INTERNATIONAL REALTY EXCLUSIVE!

Ideally located in a quiet, sought-after neighborhood on the heights of the Montreux commune, this superb 5.5 rooms offers a pleasant location, just a few steps from public transport.

Built in 2008 on a largely flat plot of approx. 830 m², the residence enjoys 180° views of the lake and surrounding mountains. Its exteriors include a stone terrace, a first-floor balcony surrounding the house, and a spacious, fenced garden with flowers.

Distributed over 3 levels, this property boasts 240 m² of living space and generous volumes. Bathed in light thanks to its south-facing aspect and numerous bay windows and windows, it offers plenty of light and optimal sunshine throughout the day. The interior

finishes are of the highest quality, and the contemporary fittings are of the highest quality. At the heart of the living area is a splendid round fireplace that adds a modern touch to the ensemble. Carefully maintained over the years, it is in excellent condition. Completely open, the room on the upper floor consists of an office area and a sleeping area.

A major renovation with extension was carried out in 2013, with an investment almost equivalent to that of the initial construction, bringing significant improvements to the villa.

As required, it would be possible to change the current layout to create two separate bedrooms. There is also the possibility of reinstating a bedroom on the garden level.

A two-car garage with automatic door and an outdoor

- Fitness room
- Shower room/wc
- Library open to garden
- Guest room open to outside with en-suite shower room/wc

1st floor

- Living room with access to terrace
- Dining room
- Open plan kitchen

CONSTRUCTION

Built using the highest quality materials, this villa combines solidity, comfort and elegance. Features include double-glazed windows, high-performance insulation and a modern heat pump, guaranteeing excellent energy efficiency and optimum comfort in all seasons.

In 2013, the property benefited from a major renovation with extension, the cost of which almost equalled that of the original construction. This extensive work brought exceptional improvements: creation of a double garage with direct access to the house via a vast entrance and storage room, installation of an open-air outdoor patio, development of a fitness room, installation of an additional outdoor parking area as well as a large terrace with flagstones on the west side.

Each element has been designed to offer both functionality and aesthetics, in an ensemble where the quality of execution is felt at first glance.
