SITUATION AND DESCRIPTION

Ideally located between the plain and the mountains, discover this superb villa, designed by a renowned architect and boasting a splendid view overlooking the town of Sion. With no facing buildings, you'll be won over by the peacefulness of this setting. Just a few minutes' walk from the center of the capital, you'll appreciate its proximity to numerous shops, restaurants, schools and museums.

With its castles of Valère and Tourbillon, Sion is a city full of history and beauty. As the capital of the Valais, it is the starting point for many expeditions and attracts tourists all year round. What's more, it's packed with activities and annual events that take place throughout the seasons, such as Sion Sous les Étoiles, Carnival parades, the Christmas Market, the Fête du Goût, etc.

Built on an exceptional site and completely renovated

in 2024, this 303 m² villa boasts a large, spacious open kitchen featuring a huge central island with wine cellars. In metal, wood or ceramic, the materials used for its renovation are of the highest quality. You'll find a dining area opening onto a light-filled living room with a lovely stone-walled fireplace. Thanks to its south-facing bay windows, you'll also enjoy plenty of sunshine throughout the day. A large terrace paved in natural stone along the entire length of the villa is the perfect place to spend pleasant moments.

On the second floor, the 4 bedrooms are all arranged so as to provide access to the large balcony. One of them is a large master suite, with a built-in dressing room, large bathtub and shower. Behind the house is a building plot of over 300 square meters, which could be used to extend the property in the future. An existing project allows the construction of an additional 60 m² wing for the villa with a swimming

pool located on the roof of this annex.

A large garage and a carport built in natural stone complete this property.
