SITUATION AND DESCRIPTION

In Manno, in a well-served and sunny residential area, stands the Residenza Verdea Living, consisting of five modern townhouses. Their exposure provides the interiors with plenty of natural light, emphasised by the large windows overlooking the private gardens. The homes are located in the immediate vicinity of the nursery, schools, bus stop and all amenities.

In this newly completed residence (2025), we are offering for sale the second 5.5-room house with a modern design, spread over two floors and completely independent. Each unit has its own garage, a dedicated heat pump, solar panels and electric car charging. The five villas are built using green building techniques combined with excellent materials and innovative design, minimising environmental impact and allowing you to live in complete harmony with the environment.

The villa, measuring 176.1 sqm, is laid out as follows:
ground floor: large open space with living room, dining room and fully equipped open-plan kitchen, a guest bathroom with connections for a washer-dryer. From the ground floor, access to the garden (58.5 sqm), partly terraced, and to the garage (the garage leads directly into the house).

1st floor: master bedroom with en-suite bathroom, 3 further bedrooms, two of which have a shared panoramic terrace (11.5 m²), a bathroom, a utility room (with connections for a washer-dryer, sanitary fittings, etc.).

This housing solution is ideal for a family that loves elegance and comfort.
