SITUATION AND DESCRIPTION

Set within a private garden of over 2,600 sqm, this Mediterranean-style villa enjoys a sunny and peaceful location with partial lake views. It is just a 10-minute drive from Lugano city center and TASIS (American School), in a quiet residential neighborhood surrounded by greenery.

The villa offers approximately 700 sqm of living space across two levels, built with high-quality materials and refined finishes. The entrance leads into a spacious, light-filled living room with a fireplace and bar area, opening onto the portico and garden. The dining room and study complete the main floor, while the separate kitchen, with pantry, is served by a wardrobe and guest bathroom. The ground floor includes five bedrooms and four bathrooms, all generous in size and naturally bright. The portico with fireplace provides a comfortable outdoor area for meals or relaxation.

The lower level features a living room with fireplace, a large hobby or party room, three bedrooms, a bathroom, and all essential utility spaces, including laundry, storage, and cellar. This level also provides access to the pool area, with a covered terrace and outdoor pool, and clearly defined, orderly outdoor spaces.

The property includes a double garage and several additional parking spaces. The thoughtful layout, quality finishes, and abundant natural light define the villa's character. Spacious and functional interiors complement the organized outdoor areas, making this residence a sophisticated, well-constructed, and carefully designed home.
