SITUATION AND DESCRIPTION

When a property occupies a dominant position, surrounded by tranquility and spectacular views, it becomes essential to enhance every detail. Renowned architect Angelo Andina, originally from Locarno, has succeeded in doing so with extraordinary mastery.

This villa, with a gross floor area of 270 sqm on a 1,590 sqm plot, offers an unparalleled view from every room: each space opens onto a breathtaking landscape, embracing Lake Maggiore, Monte Verità, and the surrounding hills.

At this altitude, a true sensory retreat is born — a place of harmony and well-being designed to rejuvenate body and mind.

Comfort, Privacy, and Versatile Spaces

The property is easily accessible thanks to an inclined lift connecting the private garage directly to the villa's entrance.

The residence is spread over two living floors, plus a large basement level — ideal for creating an art studio, a luxury wine cellar, and a private wellness & fitness area.

Outdoors, the swimming pool with solarium area and the spacious terrace with outdoor kitchen and grill create the perfect setting to enjoy spectacular sunsets, share convivial moments with friends and family, or simply relax in complete peace.

The villa has been well maintained over the years but requires general refurbishment and systems upgrading, including replacement of the heating system. The generous living space offers great

www.switzerland-sothebysrealty.ch

opportunities for renovation and customization to match the buyer's tastes and needs.

Use as a second home is permitted.
